Pyramid Model Considerations
FOR RE-OPENING AFTER AN EXTENDED CLOSURE

1. Relationships
Reinforce feelings of safety and security through meaningful connections.

2. Schedules
Update visual schedules and re-teach with developmentally appropriate expectations.

3. Routines
New routines may require additional time and adult patience.

4. Anticipate
Some children may have unexpected behaviors. Be responsive to the unmet need.

5. Emotional Literacy
Feelings may come and go. Encourage children to "check-in" with their emotions.

6. Self Reflection
Recognize your own feelings. Talk about them. Ask for help from a colleague.
