

Rosie Practices Social Distancing

By Alison Rotolo

Starring Rosie

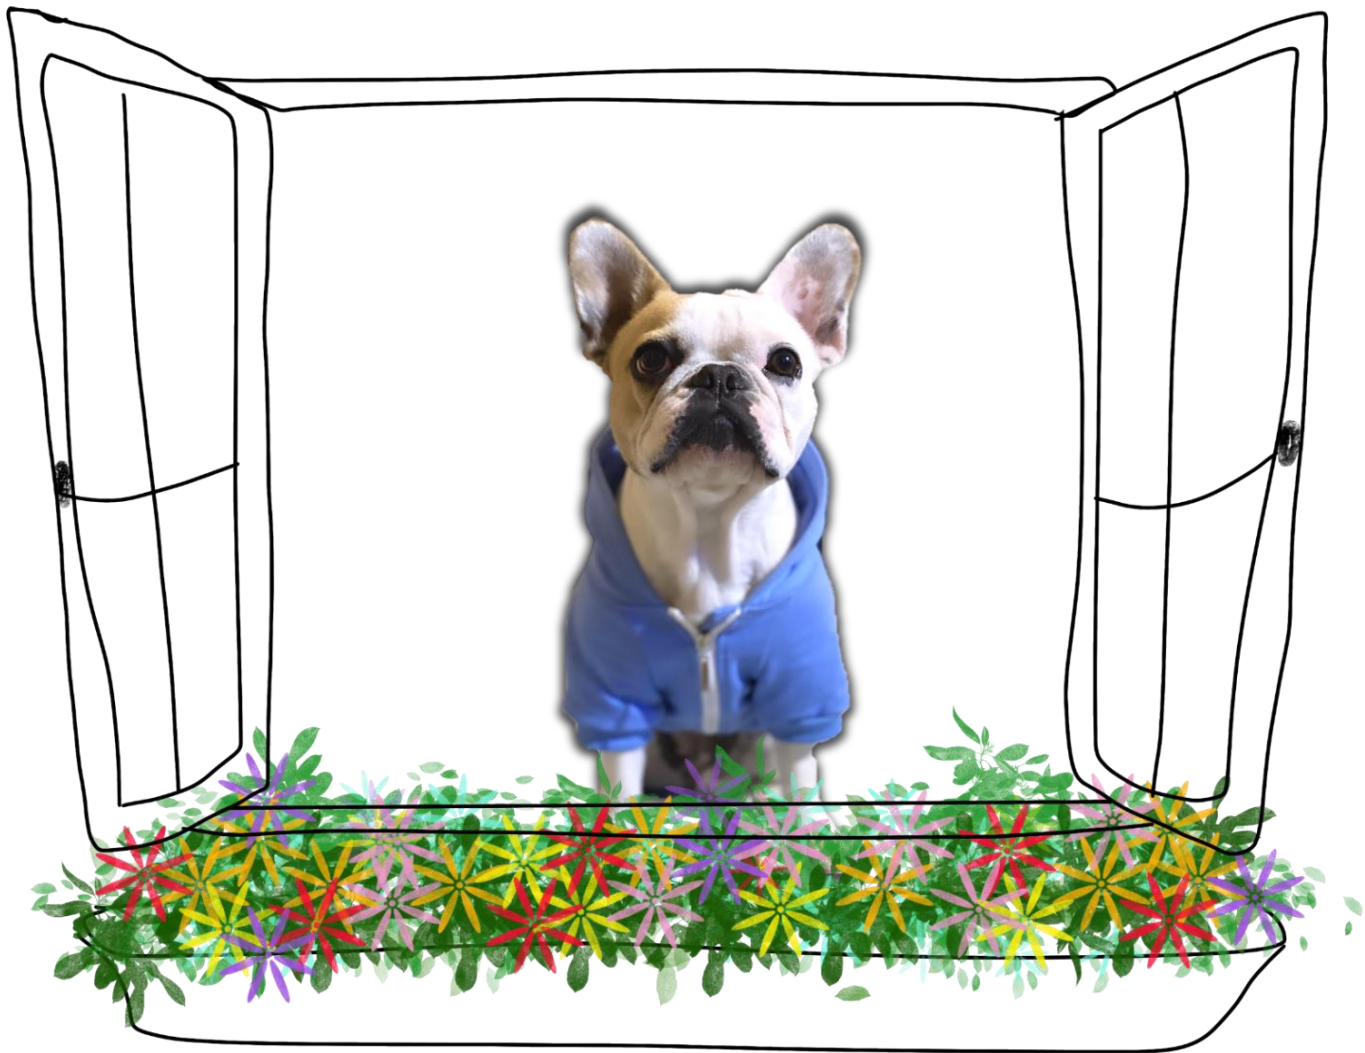

There's a yucky virus visiting the world right now and I don't want to meet it!

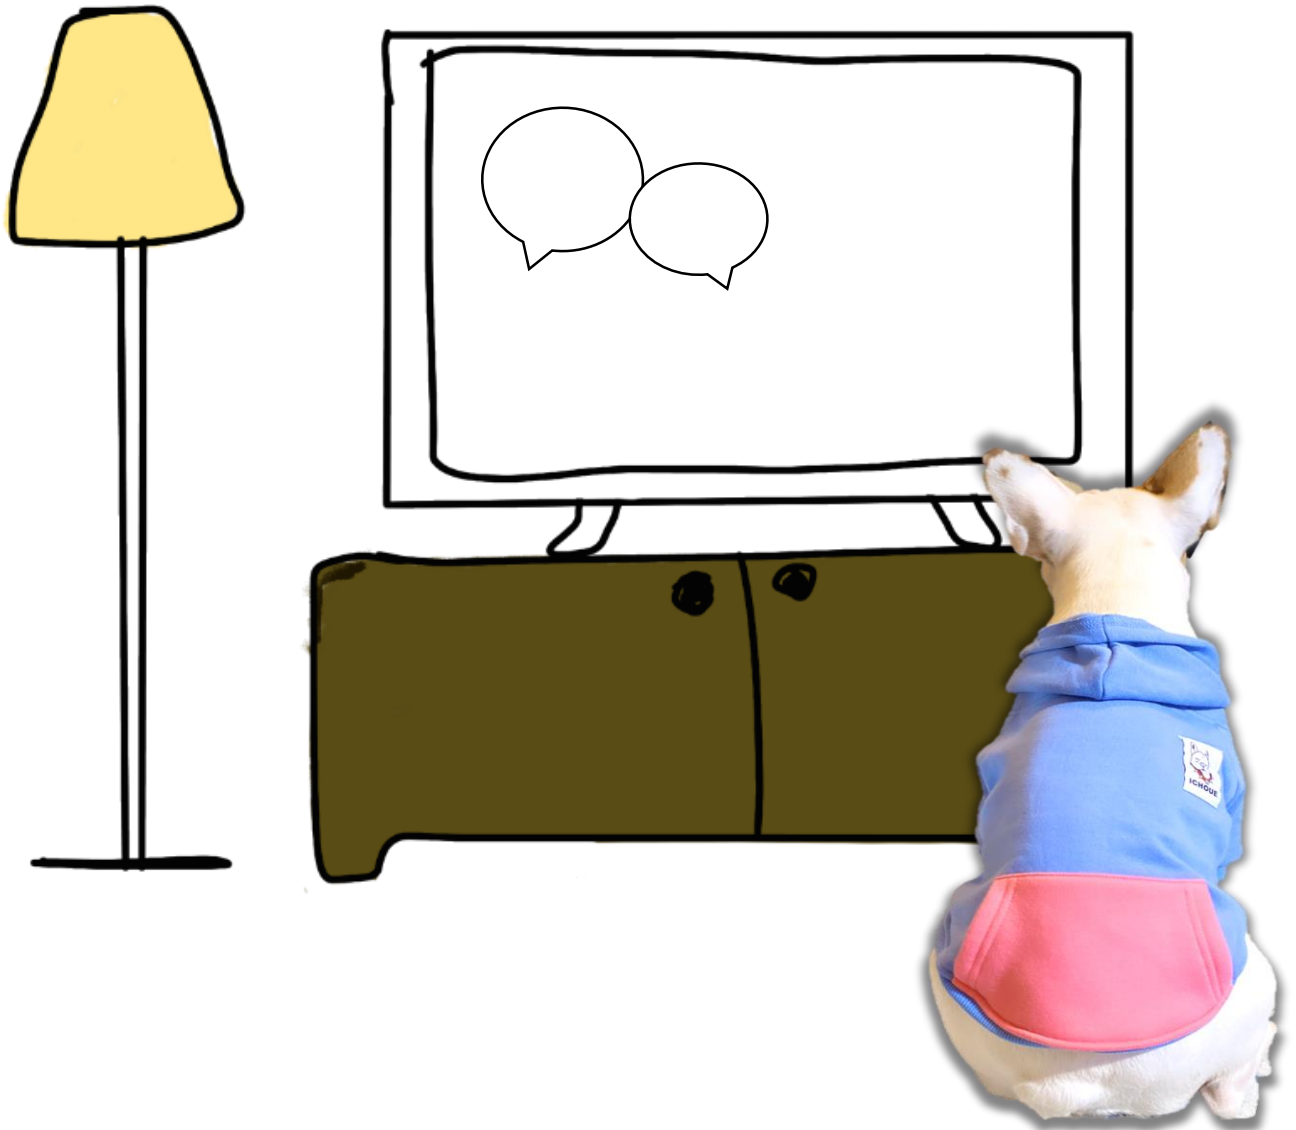

To stay safe and healthy, everyone is practicing social distancing.

Every morning I open up the windows
and breathe in the Fresh air.

Ahhhhhhhh!

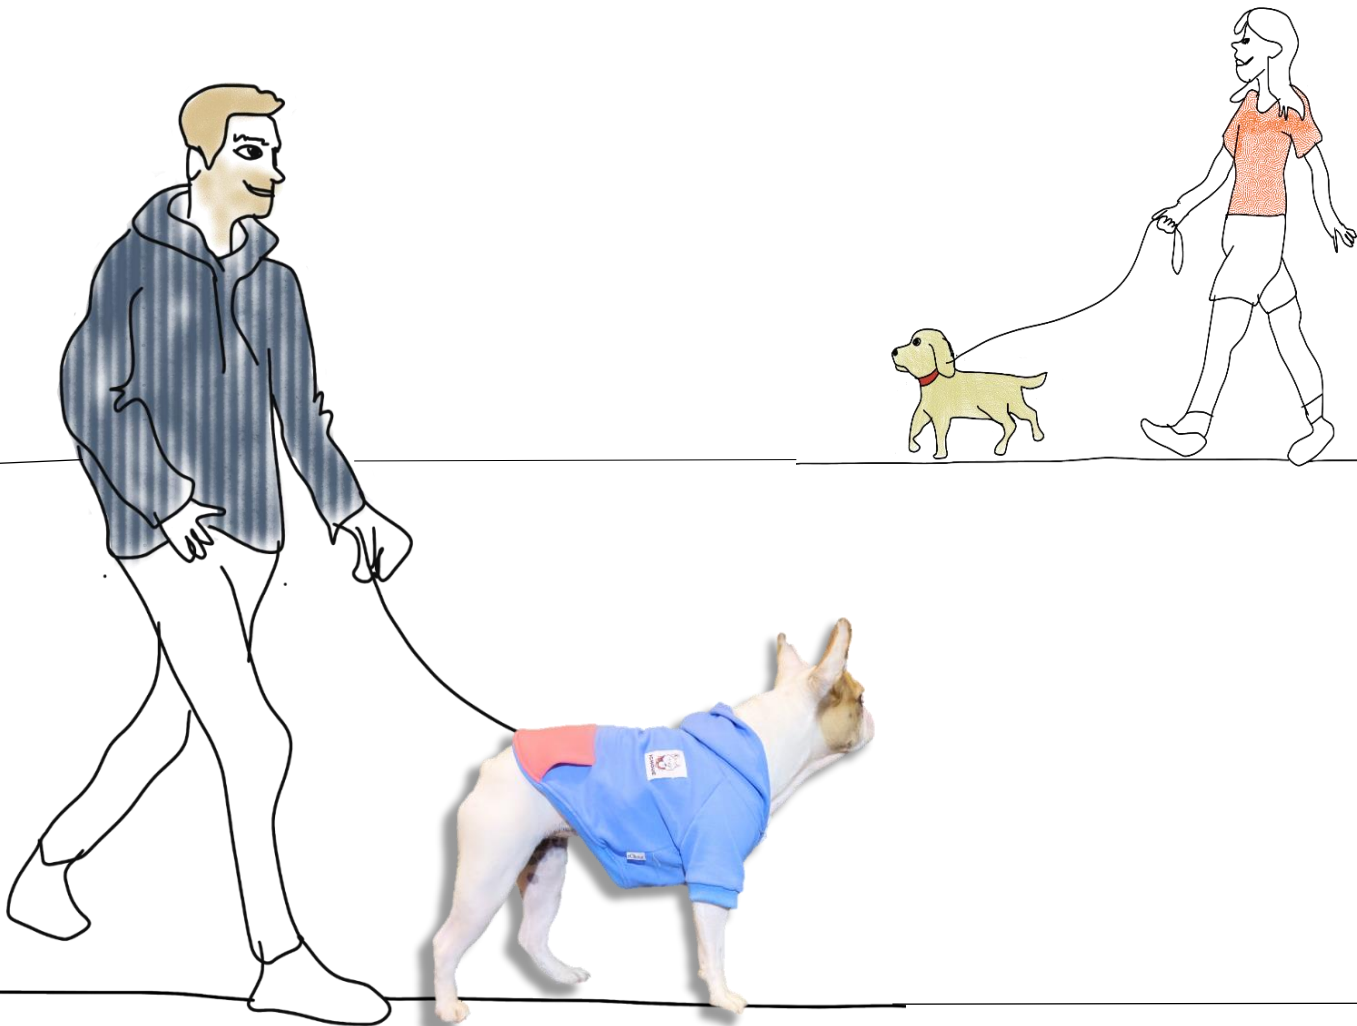

My parents watch the news and help me understand how the world is feeling and where the virus is traveling.

After, I get to watch the Fun stuff.

I take walks, explore, and play Fetch outside.

It's important to stay Far
away From other people and
dogs, so we only wave hi From
a distance!

I wash my hands A LOT!

I sing my Favorite songs and play with the soapy bubbles until my hands are clean!

It's Fun!!!

I miss my Friends, Family, and teachers,
but I get to see them on the computer and
talk to them on the phone!

Learning is Fun this way!

My parents have to do their jobs at home,
so they give me my own jobs to do too!

I take out the garbage...

And Fold the laundry...

And clean the *bathroom!*

Sometimes I get a little carried away.
Now, I know that toilet paper is not a toy.

Wow, all this social distancing
makes me sleepy.

I sleep well knowing I am staying
safe and healthy at home.
