Mental Health Consultant

- Provides brief but intensive support and plans for staff and families in the case of a situation that requires more intervention.
- Observes individual child to assess needs and solutions.
- Connects staff and/or family to community resources for further assessment and treatment if necessary.

Intensive Interventions

Targeted Social Emotional Supports

Pyramid Model Coach provides training and coaching for directors and teachers in how to provide more focused supports for kids with additional needs or acting out behavior.

The Mental Health Consultant provides the mental health lens to understand children's behavior through trauma, family dynamics, etc.

High Quality Supportive Classrooms / Nurturing and Responsive Relationships

Pyramid Model Coach provides training and works with directors and teachers to set goals that they want to improve through coaching.

The Mental Health Consultant demonstrates effective strategies for teachers to support children and parents.

Supporting Child Care Providers

Pyramid Model Coach connects program staff to foundational training to use the Pyramid Model in their classrooms. These tools help teachers improve the classroom and relationship for all children.

Mental Health Consultants support teachers in staff conflict, burnout and job satisfaction, and a broad understanding of mental health in infants and young children.
