Agenda

Introduction to the Behavior
Incident Report System

BIRS Excel Spreadsheet

Questions

Our goal is that all young children and their families can access high quality programs

Professionals
work in
partnership
with families

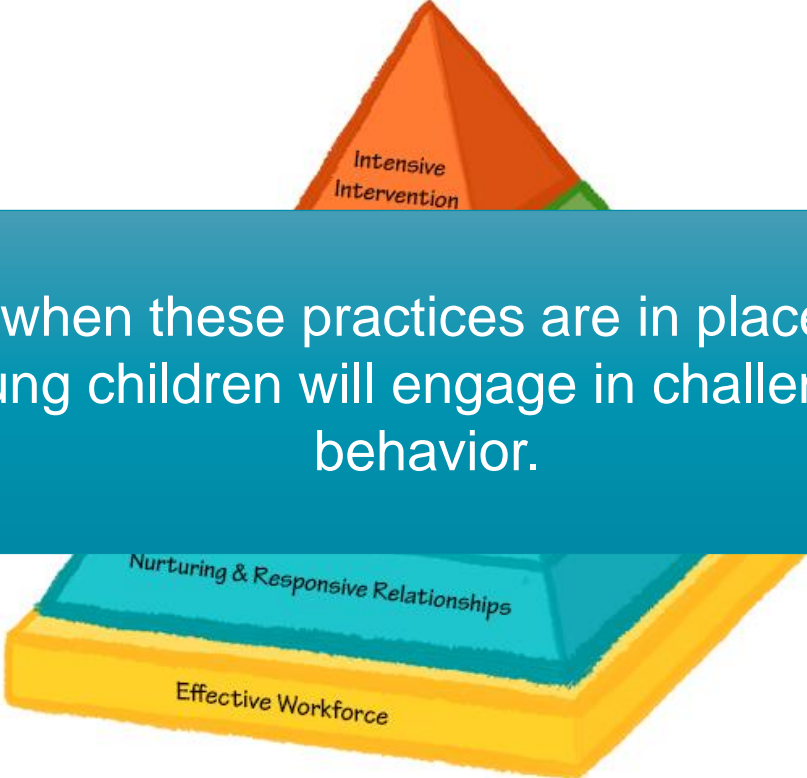

Children have
positive
social,
emotional,
and
behavioral
outcomes

No incidents
of suspension
and expulsion

Prevention and Promotion

Focus on promotion of social and emotional skills and prevention of challenging behavior.

Even when these practices are in place, some young children will engage in challenging behavior.

Young children will experience challenging behavior

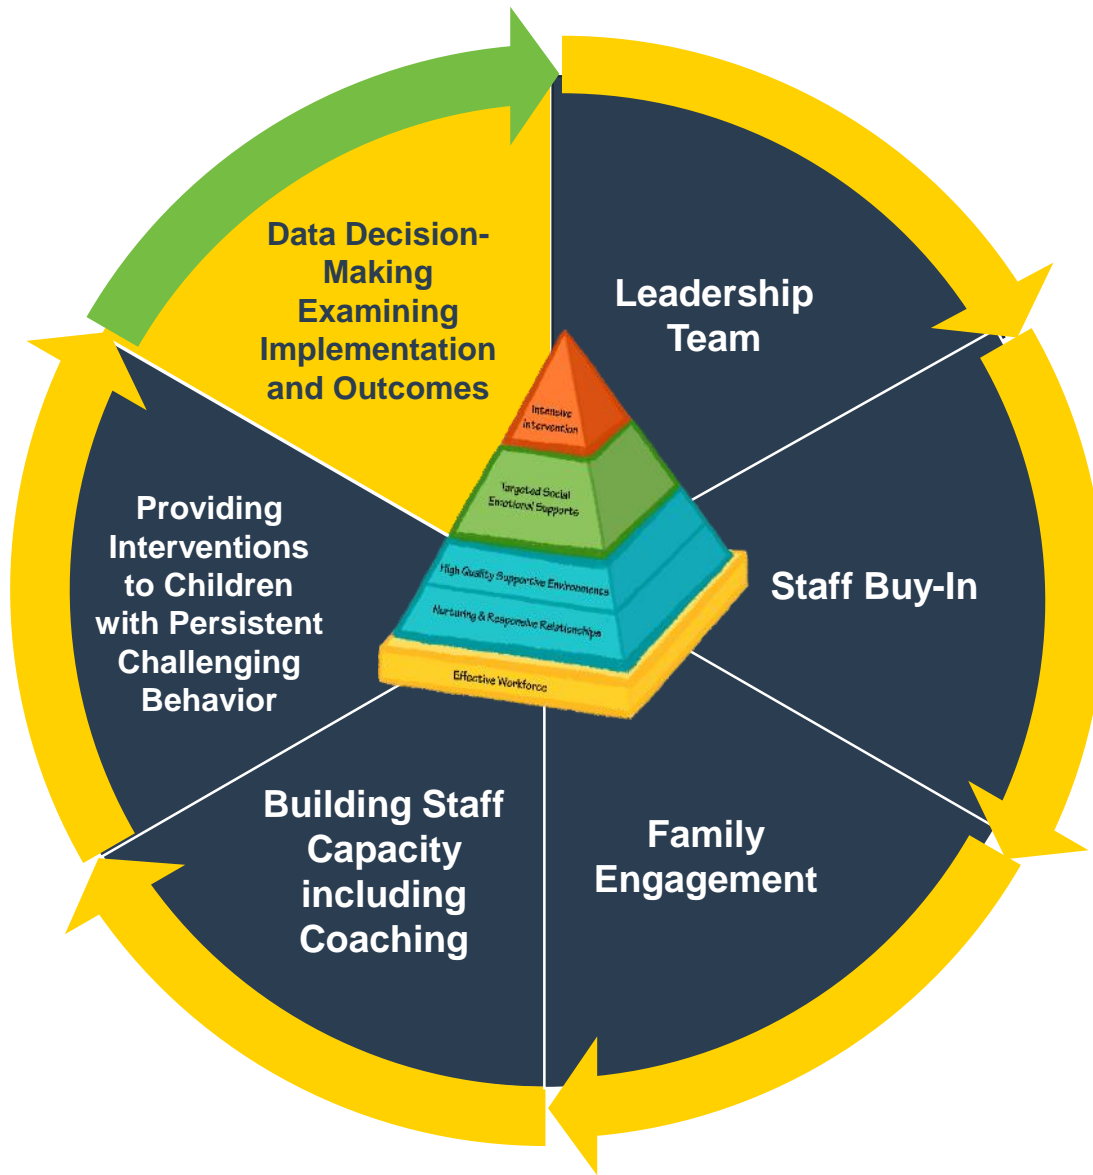

- It begins early
 - Between 10-30% of preschool children are not behaviorally and emotionally ready to succeed in school
- Early problem behavior is predictive of future challenges
 - Best predictor of delinquency in adolescence, gang membership, incarceration

Responses to Problem Behavior

- Early expulsion or suspension predicts later expulsion or suspension
- Rates of expulsion are higher in preschool than in K-12 programs
- Data show racial disparities with boys of color experiencing suspension and expulsion disproportionately

BIR Analysis as a Powerful Tool

Data that guide decisions related to behavior prevention and response

Data for identifying and addressing concerns related to discipline responses

Summary data for challenging behavior across classrooms that provides who, when, where of incidents and how adults respond that might inform program practices

Data to identify children and teachers in need of support

What is being measured?

- Child incident of behavior that the teacher finds concerning (intensity, frequency, duration) or that exceeds developmentally expected behavior challenges

VS

- Adult decision that child has violated school social norms (e.g., rule violation) and the nature is a major violation (ODR) or a minor concern that might be handled in the classroom

Behavior Incident Report (BIR)

- Form for recording serious behavior incidents and child demographics
- Generate graphs that reviewed by the leadership team
- Analyze across children, across teachers, individual children, identify potential issues of disproportionality.

Goal is to support the child, teacher, and consider actions needed for program improvement

BIR Form

- The fields for data collection are a match the behaviors, activities and procedures that occur in ECE

Behavior Incident Report			Program ID:

<input type="checkbox"/> Dual language			

BIRS Training and Instructions

Behavior Incident Report

Training

- Training on the System: <http://usf.adobeconnect.com/p34rp0iavkd/>
- Please have these instructions and 6 blank forms with you to complete the 1-hour training

Instructions

- **Always** complete when a child engages in the following kinds of behaviors:
 - Aggression to another child or adult that results in physical pain or harm to that person (includes kicking, hitting, biting, scratching)
 - Running out of classroom, off the playground, or away from group without responding to the calls of the adult
 - Intentionally injuring self in a manner that might cause serious harm to self (e.g., severe head banging, biting self)
- **Also** complete when a child continues to engage in problem behavior despite efforts to redirect to use alternate skills. On these occasions, complete the form for children who are persistent in problem behavior and their problem behavior appears to be unresponsive to the child guidance procedures you use in your classroom. The form will not be completed if the behavior has not occurred before or if the behavior may be developmentally-expected (e.g., year old who tussles over a toy). These behaviors might be:
 - Tantrums
 - Inappropriate language
 - Hitting
 - Breaking or destroying items
 - Disruptive behavior

Form Definitions

- **Problem Behavior**
 - This category refers to the most serious behavior exhibited by the specific child. Only circle the **ONE** behavior that is the most intense; the behavior that led the teacher to complete the BIR form.

Behavior	Definition	Example
1. Physical Aggression	Making physical contact with an adult or peer where injury may occur	Striking, pulling hair, biting, scratching, pulling clothes, kicking, spitting
2. Disruption/Tantrums	Causing an interruption in class or activity	Throwing items, loud vocalizations, crying, screaming, cursing
3. Inconsolable crying	Crying for an extended period of time. All typical comfort strategies are unsuccessful	Crying, isolating self, refusing typical comfort strategies implemented by adults
4. Verbal aggression	Threatening, offensive, or intimidating words directed towards an adult or peer	Screaming, name calling, profanity, use of threats
5. Inappropriate language	Using words or phrases that are offensive or rude; not always directed at a person	Profanity, insults
6. Non-compliance	Refusing to follow direction	No response to specific verbal or non-verbal directions; engages in activities other than what is specified in directions.
7. Social withdrawal/Isolation	Non-participation in classroom activities with peers/adults or withdraw from play or social interactions with peers or adults Extreme lack of participation or interest in classroom activities, games, songs, etc.	Refusing to join activity, refusing to participate in activity, no eye contact, no conversation. For toddlers, hanging at the door for extended periods of time waiting for parent, falls asleep in response to attempts to engage, turns face or eyes away from interaction, etc. Wandering aimlessly/ "In own world"
8. Running away	Leaving the unsupervised area alone and without permission	Leaving the classroom, playground, or group without permission or supervision
9. Breaking/destroying items or objects	Deliberately impairing or destroying items, property damage	Tearing paper, breaking items, writing on items
10. Unsafe behaviors	Engaging in dangerous acts with materials	Standing on furniture, inappropriate use of classroom materials

BIR Analytic Elements

Measure	Analysis	Factors
Behavior incident frequency	<ul style="list-style-type: none"> ➤ Program ➤ Classroom ➤ Child 	<ul style="list-style-type: none"> ▪ Type of Problem Behavior ▪ Activity ▪ Others involved ▪ Possible motivation ▪ Strategy/Response ▪ Administrative follow-up
Disproportionality	<ul style="list-style-type: none"> ➤ BIR Composition ➤ BIR Risk ➤ Risk Ratio 	<ul style="list-style-type: none"> ▪ Race/Ethnicity ▪ Gender ▪ IEP status ▪ DLL

Tracking Administrative Actions:

- **In-School Suspension**
 - **Response:** Time in a different classroom or adult outside the classroom
 - **Administrative Follow-Up:** Temporary removal from classroom
- **Out-of-School Suspension**
 - **Administrative Follow-up:**
 - Sent home for remainder of day
 - Sent home for one or more days
- **Dismissal**
 - **Administrative Follow-up:** Dismissal from program

BIRS Equity Profile Alerts

- Built into the system
- Does not require you to manually calculate
- Alert displays after data entry

Equity Profile Alerts

INCIDENT ALERTS	
Check Race/Ethnicity Equity Profile Check Gender Equity Profile Check DLL Status Profile	
IN-SCHOOL SUSPENSION ALERTS	OUT-of-SCHOOL SUSPENSION ALERTS
Check IEP Status ISS Equity Profile Check DLL Status ISS Equity Profile	Check Race/Ethnicity OSS Equity Profile Check Gender OSS Equity Profile
DISMISSAL ALERTS	
Check IEP Status Dismissal Equity Profile	

Process

Teachers Trained

- Teachers receive online training on how and when to use a BIR form for a behavior incident

Complete BIR Form

- Completed by the classroom teacher or staff member following a behavior incident that is not developmentally normative or is a cause for a concern

Forms provided to data entry staff

- BIR Form is provided to a designated person on staff who enters data into the spreadsheet

Data Analysis

- The spreadsheet provides a summary for examining factors related to behavior incidents

Implementation / Data Decision-Making

Data Decision-Making

Data decision-making is a foundational element of the Pyramid Model. State leadership teams use data decision-making when examining statewide implementation components and outcomes for local programs, practitioners, and children. Programs use data decision-making to examine their implementation of the Pyramid Model, practitioner implementation of Pyramid Model practices, and outcomes for families and children.

Data Decision-Making Tools

These tools and spreadsheets provide coaches, program leaders, and practitioners with data gathering tools and displays that facilitate data decision-making.

State Leadership Team Tools

- State Leadership Team Benchmarks of Quality
- Program Coaches

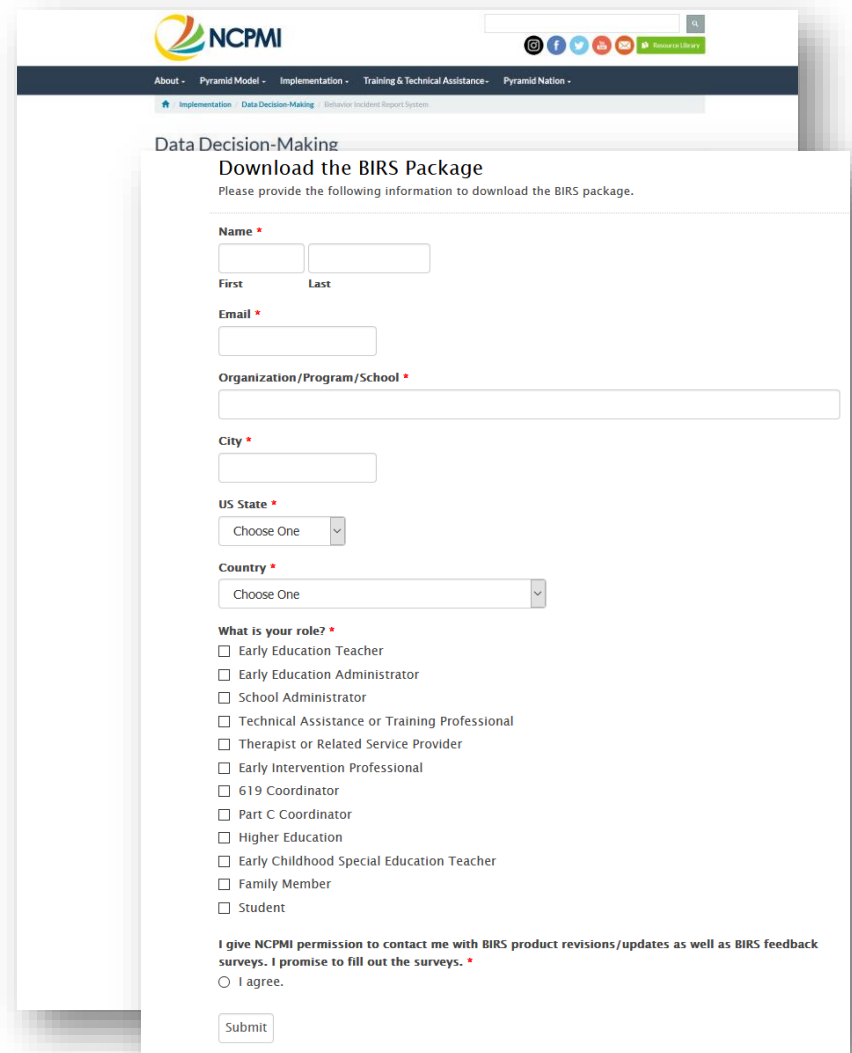

Classroom & Program Tools

- Early Childhood Program-Wide PBS Benchmarks of Quality v. 2.0
- Teaching Pyramid Observation Tool (TPOT) for Preschool Classrooms
- Teaching Pyramid Infant-Toddler Observation Scale (TPITOS)
- Classroom Coaching Contacts
- Behavior Incident Report System (BIRS)

Behavior Incident Report System

- BIR Overview Fact Sheet
- BIRS Teacher Fact Sheet
- BIRS Excel Workbook (Blank and Demo versions)
- BIR Form
- Instructions for when to complete a BIR with link to teacher training
- BIRS Data Decision-Making Guide
- BIRS Data Entry Guide

The screenshot shows the NCPMI website interface. At the top, there is a navigation bar with the NCPMI logo and links for 'About', 'Pyramid Model', 'Implementation', 'Training & Technical Assistance', and 'Pyramid Nation'. Below this is a breadcrumb trail: 'Implementation > Data Decision-Making > Behavior Incident Report System'. The main content area is titled 'Data Decision-Making' and features a section for 'Download the BIRS Package'. A message asks the user to provide information to download the package. The form includes fields for 'Name' (split into 'First' and 'Last'), 'Email', 'Organization/Program/School', 'City', 'US State' (a dropdown menu), and 'Country' (a dropdown menu). Below these fields is a section titled 'What is your role?' with a list of roles and checkboxes: Early Education Teacher, Early Education Administrator, School Administrator, Technical Assistance or Training Professional, Therapist or Related Service Provider, Early Intervention Professional, 619 Coordinator, Part C Coordinator, Higher Education, Early Childhood Special Education Teacher, Family Member, and Student. At the bottom of the form, there is a consent statement: 'I give NCPMI permission to contact me with BIRS product revisions/updates as well as BIRS feedback surveys. I promise to fill out the surveys.' followed by a radio button for 'I agree.' and a 'Submit' button.

The Tech Stuff

- Requires a desktop or laptop computer with:
 - Windows OS with Microsoft Office 2011 and newer
 - Mac OS with Microsoft Office 2016
 - Office365.com
- Plan on where to save your spreadsheet
 - On your network or other platforms (i.e., Box, DropBox, Google Drive, OneDrive, etc.)

The Behavior Incident Report System (BIRS)

BIRS

The Behavior Incident Report System (BIRS) collects and analyzes behavior incidents in early childhood settings.

The system provides an efficient mechanism for gathering information on elements related to behavior incidents that are used to make decisions about providing supports to teachers and children within the program. In addition, the BIRS includes alerts about potential equity issues by calculating disproportionality related to race, ethnicity, IEP status, gender, and dual-language learners. The BIRS also provides information on the frequency of behavior incidents resulting in suspensions and expulsions.

The goal of the BIRS is to support the child, teacher, and consider the actions needed for program improvement.

The BIRS offers early childhood programs a system that is uniquely designed to provide data related to teacher reports of behavior incidents for young children. Behavior tracking data systems designed for students in K-12 programs typically track rule infractions or office discipline referrals. The BIR system focuses on behaviors that are of concern to the teacher and includes fields for the kinds of challenging behaviors that often occur in the preschool classroom and the responses to behavior that are likely to be used by the early educator.

What is a Behavior Incident Report (BIR)?

A Behavior Incident Report form is used by teachers to record serious behavior incidents and gathers critical information around the following factors:

- ▶ Problem Behavior
- ▶ Activity
- ▶ Others Involved
- ▶ Possible Motivation
- ▶ Response
- ▶ Administrative Follow-up
- ▶ Race/Ethnicity
- ▶ Gender
- ▶ IEP Status
- ▶ Dual-Language Learner

The BIR Form is provided to a designated person or staff who enters the data into the BIR Data System.

Data System

The BIRS uses an Excel spreadsheet to track and summarize behavior incidents. A Program Summary is generated containing relevant charts and tables specific to program-level data. Summary is generated containing relevant charts and tables specific to program-level data. Making it easy for programs to view and analyze data on a monthly basis. Classroom level and individual child charts and tables are also provided. In addition, users can analyze data further by each factor on the BIR form (i.e., Problem Behavior, Activity, Others Involved, Possible Motivation, Response, and Administrative Follow Up). The data system includes built-in filters giving the user the ability to narrow down data sets.

How are the data used?

The Leadership Team of a program uses BIR data to make data-based decisions related to the support of teachers, children, and the program. The team uses the data to summarize and highlight critical data and focus on the "patterns" and "trends" at the program, classroom, or individual child level. The summarized data are used to:

- ▶ Identify training needs
- ▶ Deliver professional development
- ▶ Problem solve around specific children or social and emotional needs
- ▶ Make other programmatic changes (e.g., playground schedule, program-wide expectations)
- ▶ Examine equity

Why use the BIRS?

By reviewing BIR data, leadership teams can improve the quality of data-based decision-making and action-planning. Data-based decision-making is facilitated when a focused, well-defined need is established. The BIR System allows for behavior patterns to be defined in greater detail and for leadership teams to "dig deeper" with data, gaining more information about specific questions related to overall program-wide and classroom patterns. BIR data collection and analysis can also assist programs to identify potential issues of disproportionality, determine individual children's incident patterns, and use year-end data to guide action planning for the upcoming year.

To access the BIRS system, go to:

What Every Teacher Wants to Know About the BIR

BIRS

What is a Behavior Incident Report (BIR)?

A simple data collection tool used to document serious behavior incidents that can be used to support classrooms and programs.

But I hate data. I am just here to teach.

Data are not as scary as you think. We use data daily in our lives. For example, we might decide we need to lose weight and get in shape. We decide to keep track of our eating and exercise habits for a week. We look at the log and determine how to change our eating and exercise habits based on what we recorded. That is an example of using data to make a decision about how we will proceed. When we want to change a behavior in the classroom, we collect information about behavior to determine the most effective way to address this behavior. Using the BIR helps us do this.

What is considered a serious behavior incident?

- ▶ Aggression (e.g., kicking, hitting, biting, scratching)
- ▶ Elopement (i.e., leaving area without permission and not responding to request to return)
- ▶ Self-injurious behavior (e.g., biting self, hitting self)

What about behaviors like tantrums, inappropriate language, property destruction, or general disruptive behavior?

You would document those if you have attempted to redirect the child and the child was not responsive to the strategies that you are using. You might also document them if they happen with a frequency, intensity, or duration that seems unusual or not typical.

What information does the BIR ask for?

- ▶ Problem Behavior
- ▶ Activity
- ▶ Others Involved
- ▶ Possible Motivation
- ▶ Response
- ▶ Administrative Follow-up
- ▶ Child Demographics

There were so many behaviors that happened at once... inappropriate language. Since hitting another child with a toy is a safety issue, you would consider that to be the most intrusive. Select that for the BIR.

If I only select one behavior, won't we be losing important information?
There is a space on the BIR where you can add notes about the other behaviors that might have occurred.

Digging into Data Webinar Series

- This webinar series will focus on Pyramid Model data tools
- Next webinar: July 14th @ 3pm EST, “Addressing Challenging Behavior through Data: Implementing the BIRS in Your Program”
