

# Introduction to the Teaching Pyramid Observation Tool (TPOT) and Teaching Pyramid Infant Toddler Observation Scale (TPITOS)

**Denise Perez Binder**  
**Anna Winneker**  
University of South Florida

National Center for  
**Pyramid Model INNOVATIONS**  
[ChallengingBehavior.org](http://ChallengingBehavior.org)

**Agenda**

- Why Data?
- Teaching Pyramid Observation Tool
- Teaching Pyramid Infant Toddler Observation Tool
- Making Class-wide Decisions

Data is not about adding more to your plate. Data is about making sure you have the right things on your plate.

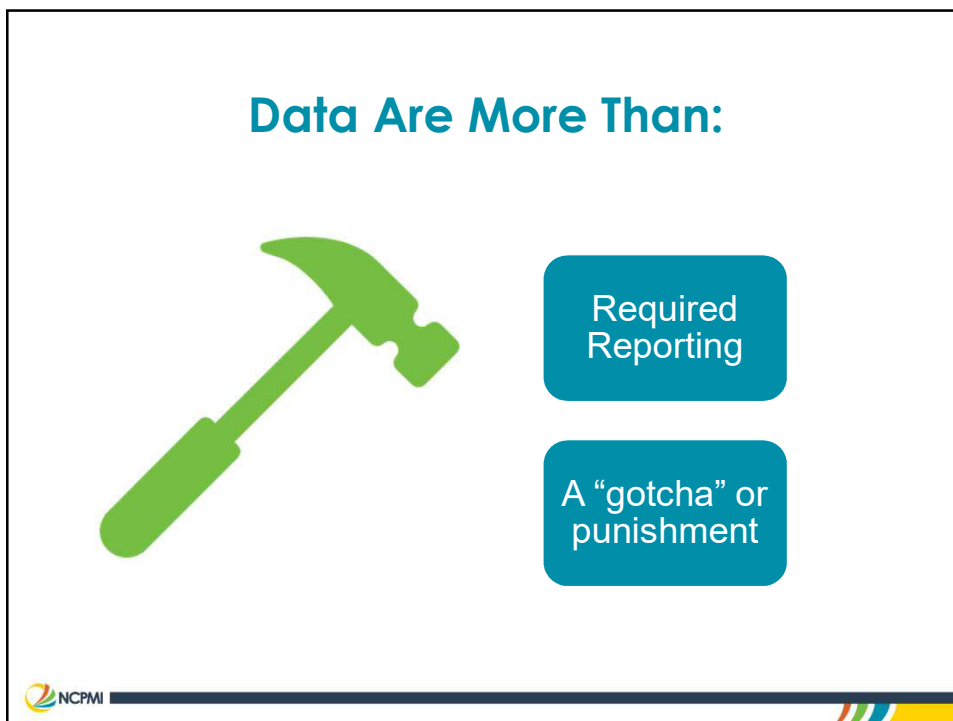

### Data Are More Than:

Required Reporting

A "gotcha" or punishment

## A Data-Decision Making Approach: Some Basic Assumptions

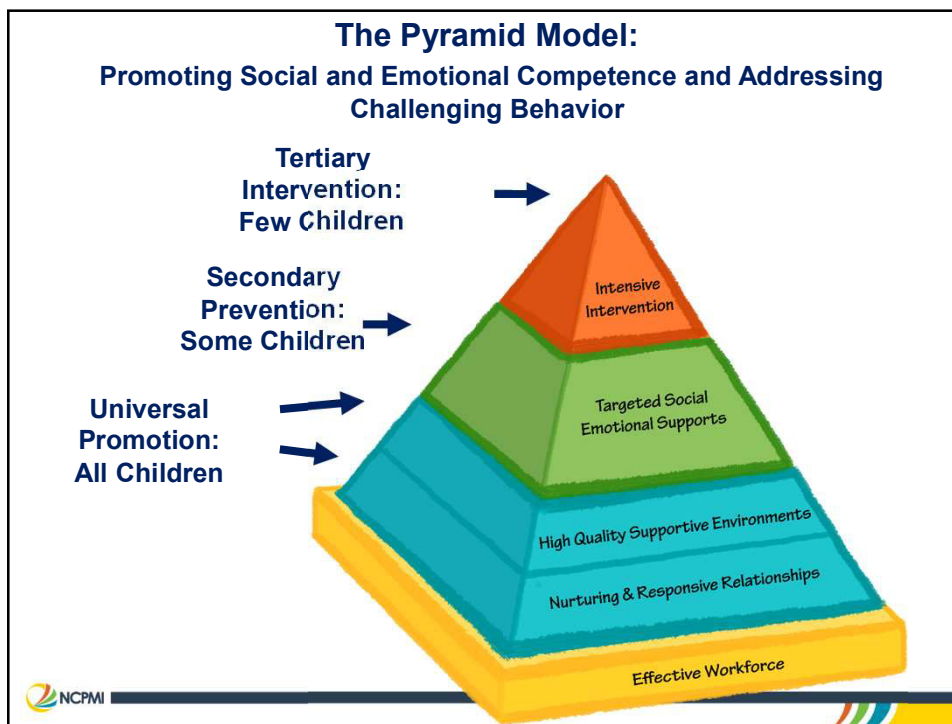

- ✓ Clear vision is established
- 📈 Outcomes are identified
- 📊 Fidelity and outcomes are measured
- 📄 Data are summarized and used
- 👁️ Data collection AND ANALYSIS is an ongoing process

## Organizing For an Effective Problem Solving Conversation

A key to collective problem solving is to provide a visual context that allows everyone to follow and contribute

Newton, J. S., Todd, A. W., Algozzine, K., Horner, R. H., & Algozzine, B. (2009). The Team Initiated Problem Solving (TIPS) Training Manual. Educational and Community Supports, University of Oregon, unpublished training manual.

NCPMI

## Why Pyramid Model?

### Positive implementation outcomes

- Children improve social/emotional skills
- Teachers work effectively with all children including those with challenging behaviors and/or disabilities
- Program effectively prepares children for Kindergarten
- Program builds responsive relationships with each child and family

## The Goal

**Fidelity of implementation  
that leads to outcomes for children,  
families, providers, and programs.**

## Classroom Observation Tools

## TPOT and TPITOS Basics

-  Completed by Practitioner Coach (pre and post recommended)
-  Is an observation and interview informed rating scale
-  Is designed for teacher's professional development
-  Guides coach and teacher to develop action plans for the classroom
-  Assess implementation fidelity in specific classrooms

## TPOT and TPITOS Materials

Scoring booklet	Manual
<ul style="list-style-type: none"><li>• Classroom information</li><li>• Schedule</li><li>• Items</li><li>• Space for notes</li></ul>	<ul style="list-style-type: none"><li>• Definitions</li><li>• Items with scoring guidance, rules and clarifications</li></ul>

<http://www.brookespublishing.com/resource-center/screening-and-assessment/tpot/>

 NCPMI

**Observations**

- Conducted for a minimum of 2 hours
- Focus of observation is primarily on lead teacher's behavior, **but consider all adults**

**Interviews**

- For those practices that might not or cannot be observed during a 2-hour observation

**Structure**

- Observation Items
- Interview items
- Red Flags

## Using the Tools: Similarities

## Pyramid Model Practices Measured by the TPOT

Item Type	Item Name
<b>Observation Items</b>	1: Schedules, routines, and activities (SR) 2: Transitions between activities (TR) 3: Supportive Conversations (SC) 4: Promoting Engagement (ENG) 5: Providing directions (PD) 6: Collaborative teaming (CT) 7: Teaching behavior expectations (TBE) 8: Teaching social skills and emotional competencies (TSC)
<b>Observation and Interview</b>	9: Teaching friendship skills (FR) 10: Teaching children to express emotions (TEE) 11: Teaching problem-solving (TPS)
<b>Interview Items</b>	12: Interventions for children with persistent challenging behavior (PCB) 13: Connecting with families (COM) 14: Supporting families in using Pyramid Model practices (INF)
<b>Red Flags</b>	15-31: Red Flags
<b>Observation of CB</b>	32: Strategies for Responding to Challenging Behavior (SCB)

## Practices Measured by TPITOS

- Opportunities for communication and relationship building
- Demonstrates warmth and responsiveness
- Promotes positive peer interactions
- Promotes engagement
- Responsive to emotions and teaches about feelings
- Communicates appropriate behavioral expectations
- Responds to distress and manages challenging behaviors
- Uses strategies for children with disabilities or dual-language learners
- Conveys planned schedule, routines and transitions
- Environment appropriately arranged
- Collaborates with colleagues
- Uses effective strategies to engage parents
- Promotes family involvement

### Key Difference: TPOT and TPITOS

#### TPOT

- Designed for ages 3-5 years
- Observations paused during outside time and meals/snacks
- Score across routines

#### TPITOS

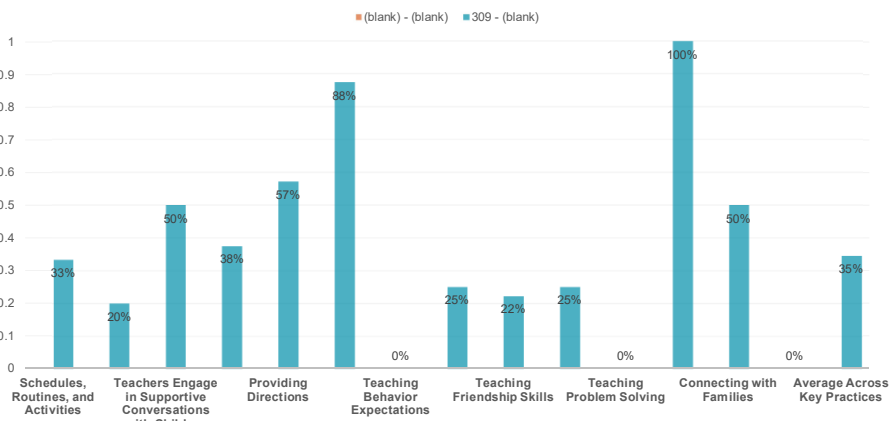

- Designed for ages birth to 3
- Observations continue during outside time and meal/snacks
- Score three routines

## Look-Think-Act

### Introduction to Look! Think! Act!

USING DATA FOR PROGRAM IMPROVEMENT

<https://dasycenter.org/look-think-act/>

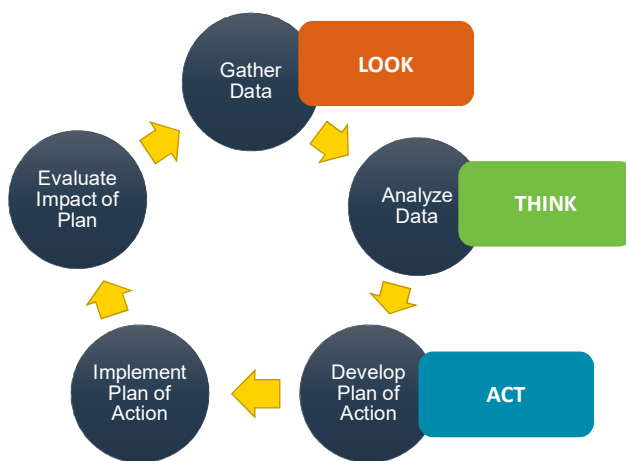

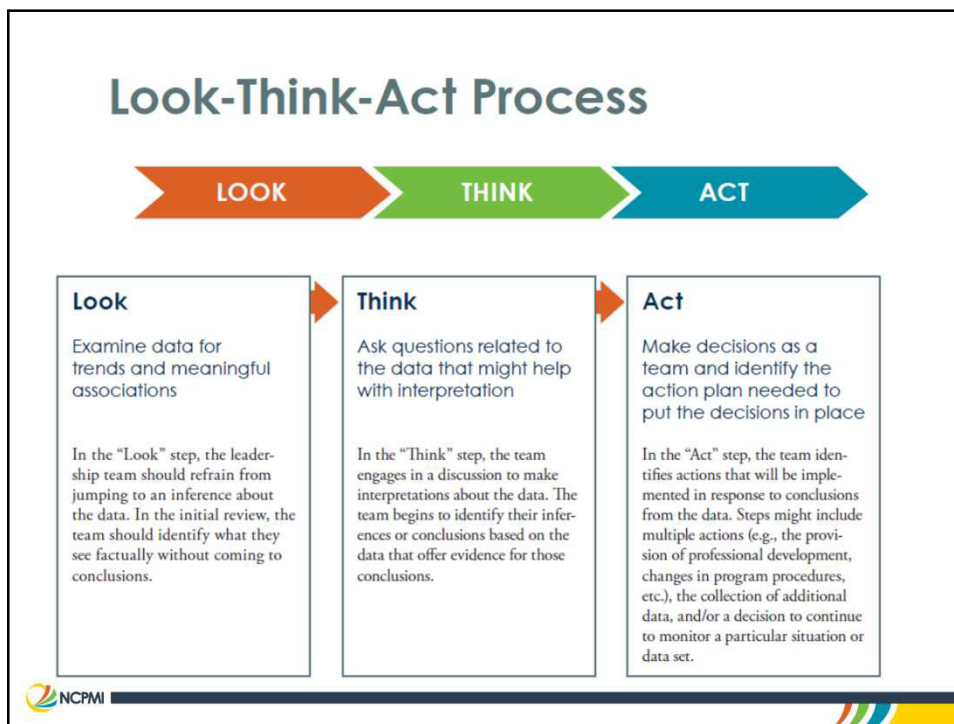

NCPMI

## Data Decision-Making : It Takes a Team

## Data Decision-Making Cycle

## Look-Think-Act

guiding data decision-making!

### Teaching Pyramid Observation Tool/ Teaching Pyramid Infant-Toddler Observation Scale

**Data Considerations for All:**

- ▶ Were data collected by trained observers?
- ▶ Were TPOI administration procedures, as outlined in the manual, followed?
- ▶ Has there been turnover in classroom staff that might affect program scores or scores within a classroom?
- ▶ Did class composition change between time 1 and time 2 data?

Look	Think	Act
What do we see?	What are the data showing? What influences these data?	Consider these actions
Look at Red Flags across teachers on the program summary tab.	Are there common red flags? What might contribute to those red flags? Is additional training needed? Is there a procedural issue? Have red flags decreased across administrations?	Plan training to build capacity for desired practice. Identify needed changes, establish new policy, and/or share data with teachers including rationale for change.
On the program summary tab look at average scores for Key Practice items across teachers. Identify the areas that are the lowest in implementation.	What might contribute to common low scores? ▶ Are action plans aligned to the practices that need improvement? ▶ Has the program established the expectation that practices should be implemented? ▶ Do teachers lack materials for implementation? ▶ Do teachers lack training or coaching in the practice? ▶ Does the curriculum support the practice? ▶ Is the culture of the program to not implement the practice?	Initiate programmatic efforts to communicate importance and expectations that teachers will implement Pyramid practices. Provide materials for implementation. Establish targeted professional development activities to strengthen common areas of need. Curricular changes to align curriculum with Pyramid Model implementation. Provide teachers with a process for requesting and receiving classroom implementation ideas.

Teaching Pyramid Observation Tool/Teaching Pyramid Infant-Toddler Observation Scale

## Data Considerations

Were there any major changes in the classroom between time one and time two?

Has the teacher received consistent coaching supports all year?

Has the teacher completed Pyramid Model practices training?

## Look-Think-Act in Action

Look	Think	Act
<b>What do we see?</b>	<b>What are the data showing? What influences these data?</b>	<b>Consider these actions</b>
Look at Red Flags across teachers on the program summary tab.	<p>Are there common red flags?</p> <p>What might contribute to those red flags?</p> <p>Is additional training needed? Is there a procedural issue?</p> <p>Have red flags decreased across administrations?</p>	<p>Plan training to build capacity for desired practice.</p> <p>Identify needed changes, establish new policy, and/or share data with teachers including rationale for change.</p>

## Coaching Teachers Using TPOT Data

### Putting It All Together!

Sunshine Park Zoo Preschool is located in Sunnyburg, FL. They currently enroll 48 children ages 18 months to 5 years in 4 classrooms.

Each classroom has a lead teacher and usually one assistant. Ms. Lucia has been the practitioner coach for 2 years. This year she is excited to begin coaching Mr. Chris, the newest teacher to the Sunshine team.

Mr. Chris is new to Sunshine Park Zoo School and is also new to Pyramid Model and coaching. He is nervous but excited to grow his skills.

## THINK

NCPMI Teacher Goal Planning Form

Teacher: Chris Coach: Ms. Lucia Date: 9/17/2021

Please fill in this form and bring it with you to our next coaching meeting.

The strengths I have on each level of the Pyramid are:

- Nurturing and responsive relationships: *I have great relationships with my families*
- High quality environments: *I like my current room arrangement*
- Social Emotional Teaching Strategies: *I read lots of books about being friends*
- Intensive Supports: *I will start taking ABC cards as soon as I have a concern about a child's behavior*

The 3 most difficult parts of the Pyramid for me to use in my classroom are:

1. *Transitions to new activities*
2. *Large group times*

The first 3 things I would like to work on are:

1. *Teaching rules for Circle Time*
2. *Creating smoother transitions*

★

NCPMI

# ACT

## NCPMI Action Planning Form

Teacher: Mr. Chris Coach: Lucia Date: 9/17/21

Goal	Action Steps	Materials or Resources Needed	Timeline	My goal is met when...	Date Action Step Completed
Review and teach Circle Time rules at the beginning of every large group	1. Review each rule as soon as all children are on the carpet	Create rules wanted for large group activities (Chris & Lucia)	Finalize next week at debrief meeting	When all children are sitting, listening, and engaging in large group activities with minimal adult redirection needed	
	2. Provide examples and non-examples of each posted rule	Take pictures of kids doing the rules (Lucia)	Next Wednesday		
	3. Ask children to repeat and model rules	Make a poster with pictures and words (Chris)	Next Friday		
	4. Give positive descriptive feedback when children are following the new rules	Find place to hang poster at the front board (Chris) Make little pictures for specific children (Lucia)	Next Friday Two weeks		

Notes  
NCPMI

# Coaching Teachers Using TPITOS data

NCPMI

## Putting it All Together

The Backyard Bears Early Learning Center has four classrooms for their infants and toddlers. They have been implementing the Pyramid Model in these rooms for two years.

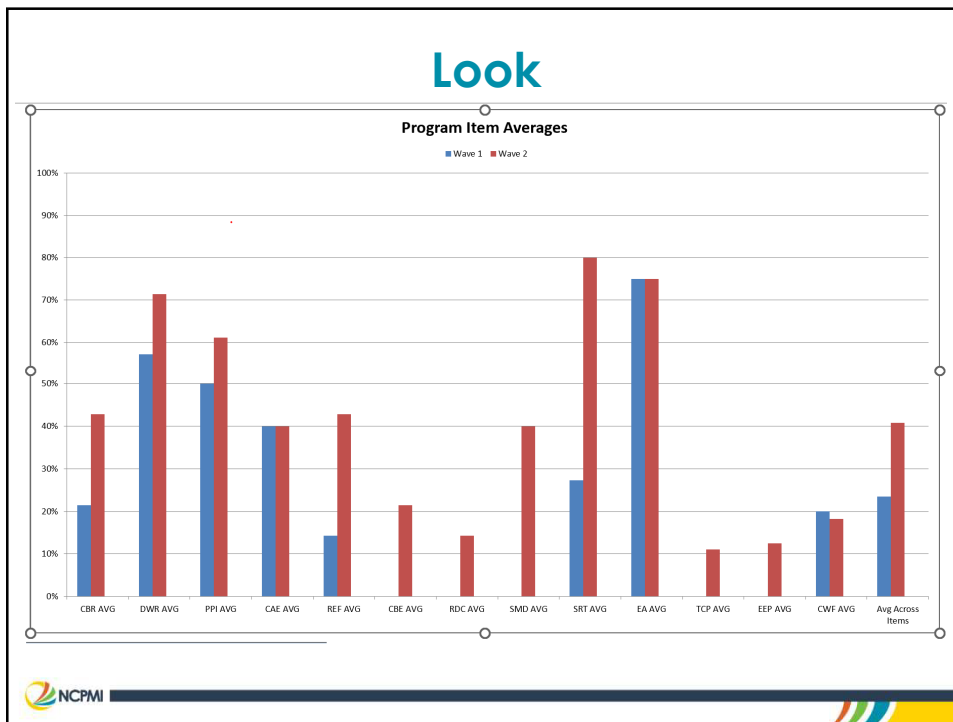

TPITOS were completed in the fall and another in the spring along with coaching during the year.

As the leadership team meets to plan for the new school year, they review their data to make decisions.

## Look

Look at average scores for Key Practice Subscale over administrations.

Look at item and indicator analysis across teachers.

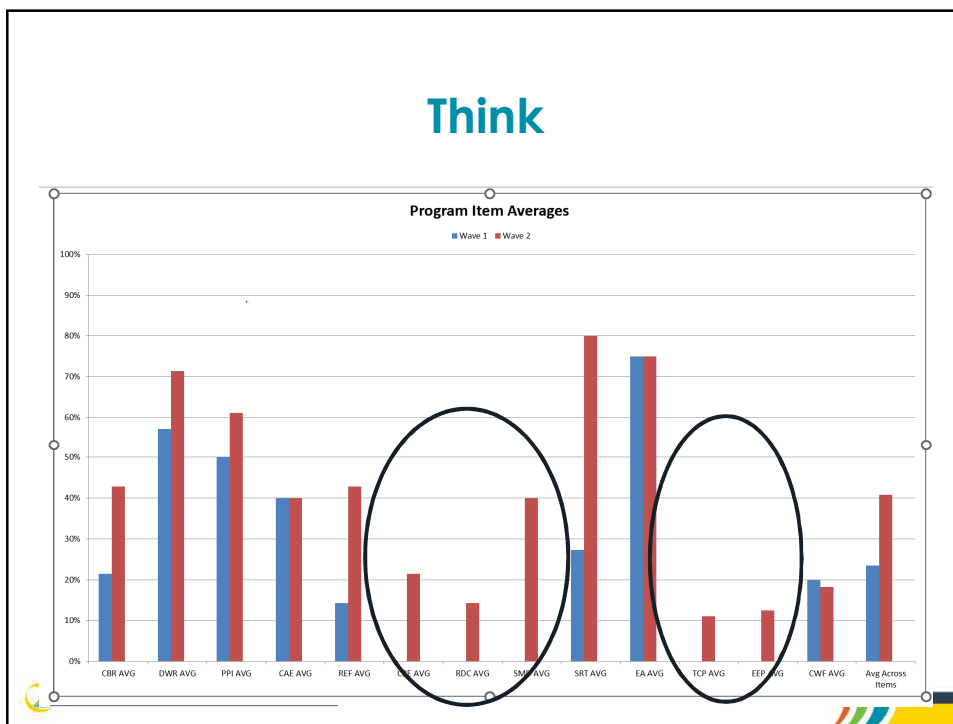

### Think

Is there evidence of growth across all teachers in the implementation of Pyramid Model practices?

What is the pattern across teachers?

Are there common items or indicators that are not being observed?

## Think

## Act

<b>Increase</b>	Increase access to professional development training (e.g., on-line, after hours, Saturdays).
<b>Provide</b>	Provide targeted professional development events.
<b>Set</b>	Set a program-wide goal for improvement in a key practice area.
<b>Provide</b>	Provide coaching with a focus on the targeted key practice item(s).

## Act

Critical Element	What is the problem/issue/task to be addressed?	Action Step/Activity	Persons Responsible	Follow-Up or Completion Date
Professional Development and Staff Support Plan	<ul style="list-style-type: none"> <li>Increase teacher capacity to use developmentally appropriate strategies to support children with disabilities and dual-language learners</li> </ul>	1. Review items related to this on TPITOS in more detail to determine specific needs	Jeanne and team	7.29
		2. Provide teachers multiple ways of accessing professional development specific to this area (e.g., Saturday trainings, online options)	Anna will identify training options Coaches will review these options with teachers	8.15 -review options 10.1 -teachers have begun accessing training materials
		3. Collaborate with teachers to update action plans to reflect this goal as needed	Coaches	8.15
		4. Provide additional coaching in these classrooms	Coaches	Continuous through school year
		5. Review progress at monthly leadership team meetings	Leadership team	Monthly meetings

## Pyramid Model Data Roadmap

- Provides guidance on all Pyramid Model tools
  - What, When, Who, Why

# Using the Roadmap

**Practitioner Coaching Log (classroom and early intervention practitioners)**

**Tool Description**

Coaching log data provide a summary of the number and duration of coaching cycles that occur and a description of the professional development strategies used during coaching cycles. NCPMI coaching log designed for coaching classroom teachers and a log for coaching early interventionists allow for a summary of the frequency and duration of coaching cycles for examining the number of coaching cycles observation and debrief occur within a cycle, the average duration of sessions, and the number of action plan goals written and completed. Practitioner coaches can use the summary of coaching data to examine what parts of the coaching cycle were provided to each practitioner, analyze their use of coaching strategies, and see practitioner progress in achieving action plan goals. In addition, the leadership team can aggregate these data across program coaches to provide a view of the total coaching effort across classrooms or early interventionists within the program.

On the following page, we provide data displays that can guide coaches and leadership teams in considering the coaching supports that are provided to individual practitioners and their progress and the program summary data that provides leadership teams with data across all coaches in the program.

**Sample Coaching Log Data**

This comparison between classroom coaching for two teachers shows differences in the number of attempted coaching cycles, the percent of completed coaching cycles, and the average duration the coach spends with each teacher during observation and debriefing.

Teacher ID	# Attempted Cycles	# of Completed Cycles	% Cycles Completed	Total Duration: Attempted Observations	Average Duration: Attempted Observations	Total Duration: Debriefing	Average Duration: Debriefing
T1	10	7	70%	100	10.0	200	20.0
T2	8	7	88%	100	12.5	133	16.1

**Sample Charts and Graphs**

**Observation Strategies Used Across All Coaching Cycles by Teacher ID**

**Debriefing Strategies Used Across All Coaching Cycles**

**Corresponding Look Think Act Guides**

Download the Coaching Cycle Implementation Tools and discussion guide to review the classroom teacher coaching data summary: <http://bit.ly/3d9qph3he>

Download the Coaching Cycle Implementation Tools and discussion guide to review the early intervention coaching data summary: <http://bit.ly/3d9qph3he>

## Share!

- Be sure teachers and families celebrate progress
- Use bulletin boards, newsletters or displays
- Add on as you put more critical elements in place

**Our goal is to work together to promote ALL children's social emotional skills**

We are proud to report that we have:

**Established a leadership team**

**Established program-wide expectations**

**NCPMI**

Implementation / Data Decision-Making

## Data Decision-Making

Data decision-making is a foundational element of the Pyramid Model.

State leadership teams use data decision-making when examining statewide implementation components and outcomes for local programs, practitioners, and children.

Programs use data decision-making to examine their implementation of the Pyramid Model, practitioner implementation of Pyramid Model practices, and outcomes for families and children.

**Download the Decision-Making Guide**  
Roadmap to Effective Intervention Practices: Data Decision-Making and Program-Wide Implementation of the Pyramid Model

### Data Decision-Making Tools

These tools and spreadsheets provide coaches, program leaders, and practitioners with data gathering tools and displays that facilitate data decision-making.

**State Leadership Team Tools**

- State Leadership Team Benchmarks of Quality
- Program Coaches

**Classroom & Program Tools**

- Early Childhood Program-Wide PBS Benchmarks of Quality v.2.0
- Teaching Pyramid Observation Tool (TPOT) for Preschool Classrooms
- Teaching Pyramid Infant-Toddler Observation Scale (TPITOS)
- Classroom Coaching Contacts
- Behavior Incident Report System (BIRS)

**Early Intervention Program Tools**

- Pyramid Model Early Intervention (Part C) Benchmarks of Quality v1.0
- Early Intervention Practitioner Coaching Contacts
- Early Interventionist Pyramid Practices Fidelity Instrument (EIPFFI)

**Community Leadership Team Tools**

- Community-Wide Benchmarks of Quality

**Other Data Resources**

- Videos & Webinars
- General Resources

**COVID-19 Pandemic**  
Emergencies and National Disasters: H  
Access resources to support families in helping young children cope with the challenges updated as we obtain more resources.
